## BRANTHAM NEIGHBOURHOOD PLAN

Brantham has taken its first exciting steps towards developing a Neighbourhood Plan; a community-led project that will help shape the future of our village.

The Parish Council has appointed Ian Poole from Places4People as our planning consultant, bringing lots of experience to guide the process. The project will be led on behalf of the Council by Robert Chamberlain, who brings a wealth of expertise and plenty of enthusiasm to the role.

Our first community consultation event took place on 25 October 2025, and we were delighted by the fantastic turnout from residents. The feedback gathered on the day provided a clear picture of what makes Brantham special, in particular, the wonderful access to open space and countryside - as well as some of the challenges we face, including limited infrastructure and the heavy traffic on the A137.

Several attendees volunteered to be part of a new Neighbourhood Plan Steering Group, which will help guide the project on behalf of the community. The next step will be to hold our first meeting and agree the group's terms of reference.

We're always keen to involve more people, so if you're passionate about Brantham's future and would like to get involved, you are very welcome! Please keep an eye on the Brantham Bugle and the Parish Council website for updates and opportunities to contribute.

**Together, we can make sure Brantham's Neighbourhood Plan truly reflects the needs and aspirations of our community.**
